BUNTING A SMALL-POX BABY.

Officers of the Health Department were out on a weird expedition last night, searching for concealed small-pox cases the infected district in Sullivan street. They didn't find any hidden patients, but did discover that a sick baby had been smuggled out of the district to other quarters unknown

It is not pleasant for the general public to know that a baby with the small-pox come robust in six months if he would per has been bundled about town, no one knows whither or by what route. ECHOOLROOM TRACEDIES.

Near Lima, O., yesterday a boy was killed in school while attempting to defend his sister, the teacher, from three strapping youths who were so unchivalrous as to forcibly resent the administration of a chastisement they well deserved A fewdays ago, in Kansas, a male teacher's throat was cut by unruly boy pupils. Also in Kansas, recently, a pedagogue who had a bad set in his school was thrown down, roughly handled and relieved of a revolver with which he had deemed it wise to arm himself a little while before.

These are gloomy incidents of public school life in portions of the West which ought to be beyond a frontier state of development by this time. The old oil of birch is not sufficient to remedy any part of such troubles and of course, th law has to be called in. It is, indeed, as anomaly that bloodshed should accompany the work of education in professedly civilized communities.

> They Manage Their Husbands and Our Men in Better Taste Than the Husbands Like It.

Fair Readers of "The Evening But They Are Not so Warm-World" Tell How It Is Done.

Men as well as women find the letters on the subject of husband-managing by wives to be extremely interesting. The letters continue to come in in large numbers and increase in merit. Thousands of the letters received cannot, obviously, be printed, but all will be considered in selecting the winner of the contest, which is governed by the follow-

Just Use Common Sense.

I can give my sentiments in a very few words on "How to manage a husband." I betieve a wife must have and use common sense, she should cultivate a gentle manner, as sweet disposition, and be a person of true refine-ment. With such qualities a man worthy of being called husband can easily be managed. A LONG ISLANDER.

without me, and I think it is because I have
always tried to be companionable—and we
are thoroughly good friends.

Frances Grey.

To the Editor A woman gifted with ordinary common sense is aware that neatness in dress and home surrounding is pleasant to her husband; but when she cannot do a thousand and one things that she would like to without being worn out—if she is cheerful and loving when he comes home he will excuse her. A wife is neither a slave, a lackey nor a sycophant, but a man's companion for life.

It mutual love exists management is unnecessary; if that sentiment does not form the all-important part of their lives no amount of deception, dancing attendance and skirmishing after his silipers will keep him in order; even the cut and dried kiss at the door will not work miracles, or gorging ills lighness with tempting dishes.

If a man loves a woman she is always charming to him, and his first thought is to be with her, drudging, hoodwinking and prinking hotwithstanding. home surrounding is pleasant to her hus-

These much discussed men might be divided into two classes. The ordinarily good men will generally listen to reason, and even allow whil generally listen to reason, and even allow themselves to be imposed upon occasionally. If the wife is not an angel, simply a sensible, square woman, she is willing to study her husband's nature, so that the best may be cultivated.
